

We are committed to improving access across Fringe and we are pleased to offer the Access Guide once again. Development on our website this year includes an access widget and a multitude of features to make our website easier than ever to navigate.

The widget can increase the standard cursor size, change the text size, switch on a dyslexia font, provide assistive keyboard navigation and has screen reader functionality, amongst many other features which we hope will assist our audiences to navigate our website.

We have a new feature that will allow audiences with a Companion Card to register once with our team and have access to book their Companion Card tickets online.

We are striving to reduce barriers to Fringe and are happy to continue our strong partnership with Deaf Can:Do and to expand our offering of accessible opportunities and we thank them for their support and guidance and welcome our new Access Partner Guide Dogs SA/NT.

This year, our Festival Support Volunteers will be on the ground to assist you and I encourage you to reach out to our team for assistance and give feedback on how we can continue to support your Fringe experience.

In 2021, audiences that are vulnerable, at risk or would prefer to enjoy Fringe from the comfort of home can watch digital events from the comfort of their lounge home. Whether you have access requirements or someone you care for does, we hope you can get along and enjoy the Fringe.
